

SPI - SPI 200 Composite.Sfe Spotv - Daily Bar Chart

note the timeframes of the retracements extending  
always count the length of time of each countertrend

April 6  
apr 20  
new all Ords high, but not on the spi, which is the mkt we are trading, difficult day for those who were short...

may 6, one of those dates... just on, even better fractionally below, a mid point. You know these dates to watch in advance...
