measure the runs to get some sort of an idea of the ranges this stock does - on the wkly as well. Now that it has moved upwards again, it should top next around 77 on wednesday. i hope to exit on the third daily run, let's see, but stop has moved up to next low now, at top of gap (pheew)

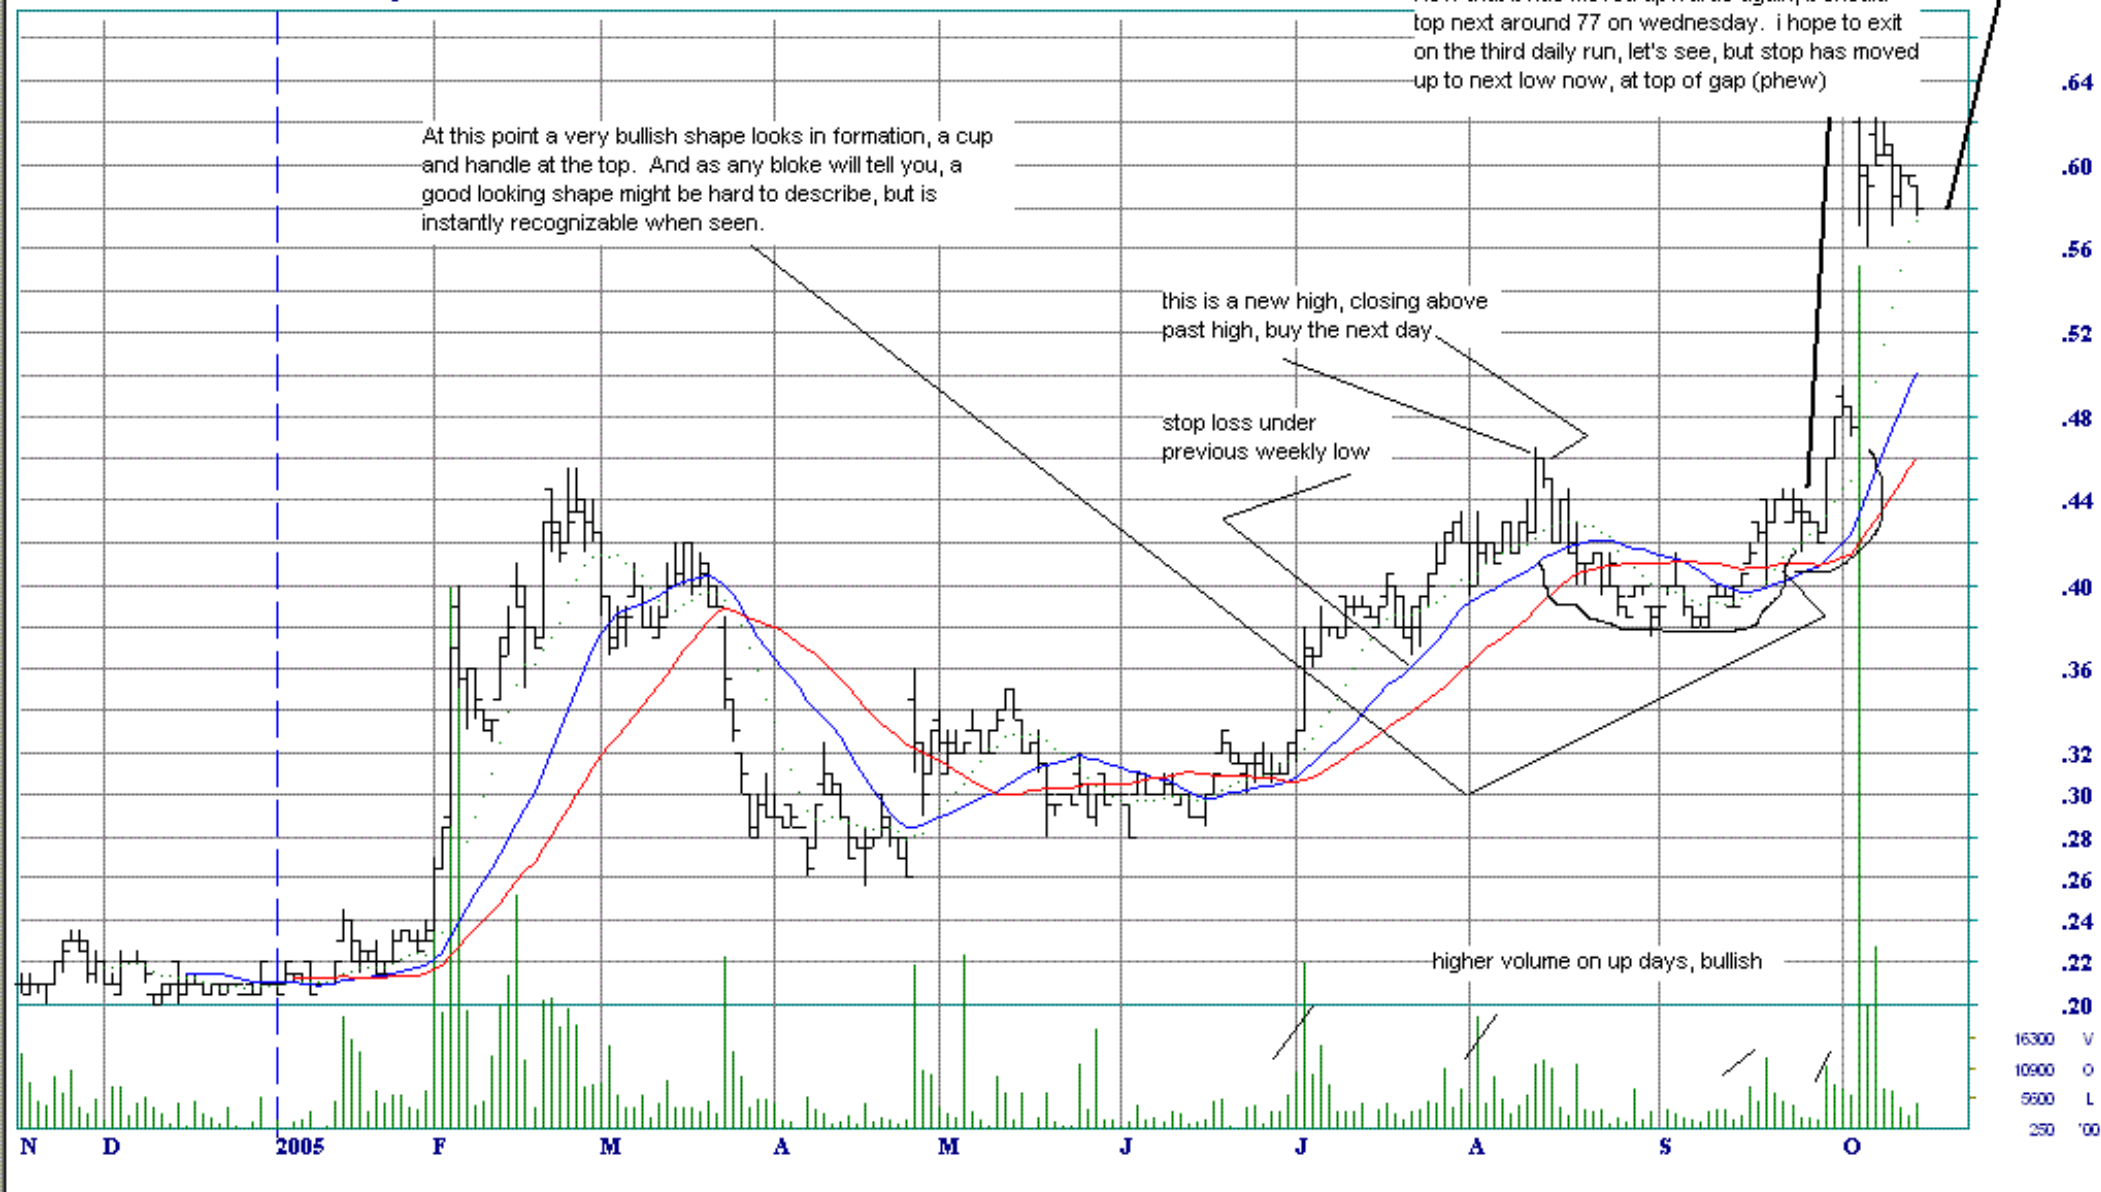

DAILY - ARITHMETIC - Gold Explorer

At this point a very bullish shape looks in formation, a cup and handle at the top. And as any bloke will tell you, a good looking shape might be hard to describe, but is instantly recognizable when seen.

this is a new high, closing above past high, buy the next day

stop loss under previous weekly low

higher volume on up days, bullish
