

# Meeting Details

All ATAA meetings are free for members from any state. Non-members are welcome to attend one meeting free of charge, but will be charged \$30 to attend further meetings.

## MELBOURNE

THURSDAY 20<sup>th</sup> April 2006 AT 5:15PM

**Please also note:** The new location of this and all future meetings is **Shell Theatrette** - Cnr Spring and Flinders Streets

Members and guests can enter from the Flinders Lane entrance opposite the Sofitel carpark entrance.

5.15pm: **Sale of Dinner Tickets**

5.40pm: Member Speaker: **Vincent Hunt** - Private Trader  
By popular demand will repeat his talk on:

Topic: **Relative Volatility Indicator**

Vincent is an Electrical/ Electronic Engineer in retirement and trading full time for a living. His background is in Industrial Process Control (Continuous Processes) and Industrial Automation (Discrete Processes). Vincent is interested in the concepts used in control systems and their application to trading systems.

Vincent will be talking about a relatively new indicator, the **Relative Volatility Indicator** and its application to trading.

Volatility or more particularly Standard Deviation is a common measure used in Quality Control. Vince maintains that most of the familiar chart patterns that measure trader's sentiments can be found in industrial control charts and most other natural and artificial systems.

Vincent has been a trader for 9 years and a member of the ATAA for most of these years.

6.10pm: Notices and announcements

6.15pm: Guest Speaker: **Phil Anderson** - renegade economist  
Managing Director of Economic Indicator Services.

Topic: **How to profit from commodity, real estate and stock market cycles.**

This talk will focus on the cyclic behaviour of commodities, real estate and the stock market. The presentation will first of all highlight the long wave cycle in commodity prices, then examine how the real estate market behaves, then have a look at a few timing principles applicable to the stock market. Once all of this has been covered, we can then apply the knowledge so gained to the stock market and specific stocks in particular, in order to help us dramatically improve our understanding of markets, and hopefully too our trading performance.

Phil has been studying business cycles, and teaching what he has found, for many years now. He is hoping to shortly finish a book about real estate cycles, and other economic cycles in general, that will be published on the EIS website. The site is at [www.paradigm4.com.au/eis](http://www.paradigm4.com.au/eis)

7.30pm: **Dinner will follow the meeting at Rosati Restaurant** at 95 Flinders Lane, Melbourne. Dinner tickets must be purchased at the meeting. Details at meeting.

**Further information:** Paul Ash -Victorian President 03 9629 4233 (bh); 03 8800 5118 (ah);

**Email:** paul@pgm.net

**Next Meeting:** 18th May

**Guest Speaker:**

**Future Meetings:** Generally on the third Thursday of the month.
