

Tuesday Sept 21st, 2010, Evening Session

Future direction.

1. Quick review of some indicators.
2. Market patterns after extremes.
3. Actual forecasts, ASX, gold, coffee.
4. Can this forecast stack up fundamentally ?
5. Reminder of K-wave position, Gann's 1950 forecast.
6. Questions

(If time, immediately after the break, Kal and Phil together will have a look at why astrologers are so bearish, and why this, in my view, won't play out.)
